

1. RENEWABLE ENERGY

- 1.1 Solar energy**
 - 1.1.1 Solar thermal systems
 - 1.1.2 Accessories fototermickým system
 - 1.1.3 Solar photovoltaic systems
 - 1.1.4 Accessories for photovoltaic systems
- 1.2 Energy from the environment (air, earth, water)**
 - 1.2.1 Heat pumps
 - 1.2.2 Accessories to heat pumps
- 1.3 Wind turbines**
- 1.4 Equipment for small hydropower plants**
- 1.5 Biomass energy**
 - 1.5.1 Production of pellets and briquettes from wooden chips or agricultural plants
 - 1.5.2 Equipment for the production of biofuels
 - 1.5.3 Boilers for combustion of biofuels
 - 1.5.4 Stoves on biofuels
 - 1.5.5 Boilers to wood
- 1.6. Battery backup generators**
- 1.7. Heat losses - insulation**

2. TECHNOLOGY FOR HEATING

- 2.1 Boilers for solid fuel**
- 2.2 Gas boilers**
- 2.3 Condensing boilers**
- 2.4 Gas Burners**
- 2.5 Oil boilers, oil burners**
- 2.6 Boilers with electric heating**
- 2.7 Preparation of domestic hot water**
- 2.8 Boilers and water storage**
- 2.9 Flow heaters**
- 2.10 Flue gas pipeline**
- 2.11 Construction and lining**

3. HEATING

- 3.1 Board, the flat radiators**
- 3.2 Sectional steel, cast iron radiators, aluminium**
- 3.3 Tubular radiators**
- 3.4 Hot-water floor heating**
- 3.5 Electric floor heating**
- 3.6 Wall heating**
- 3.7 Ceiling heating**
- 3.8 Storage heating**
- 3.9 Electric heaters**
- 3.10 Convector, industrial heaters**
- 3.11 Local direct heating of the body**
- 3.12 Radiant panels**
- 3.13 Infrared heaters, halogen and gas heaters**
- 3.14 Design of heating**

4. DISTRIBUTION AND MEASUREMENT

- 4.1 Tubes**
- 4.2 Fittings and accessories**
- 4.3 Pumps**
- 4.4 Domestic water supply**
- 4.5 Systems for water treatment, filters**
- 4.6 Heat exchangers**
- 4.7 Distributors**
- 4.8 Regulators and controls**
- 4.9 Thermometers and pressure gauges**
- 4.10 Heat Meters**

5. WARM-AIR HEATING, VENTILATION, AIR CONDITIONING AND VENTILATION

- 5.1 Use of waste heat recovery**
- 5.2 Heat exchangers**
- 5.3 Fans**
- 5.4 Filters**
- 5.5 Facilities for the supply and exhaust of air**
- 5.6 Humidifier and air dryers**
- 5.7 Central vacuum cleaners, cleaners and air washer**
- 5.8 Below the heating and ventilation units**
- 5.9 Refrigerating systems**
- 5.10 Air conditioning units and devices**
- 5.11 Other ventilation devices**
- 5.12 Divorces (the leadership of) the air**
- 5.13 Controllers for air conditioning systems**

6. STOVES, FIREPLACES AND FURNACES

- 6.1 Stoves and fireplace inserts**
- 6.2 Tiled stove**
- 6.3 Cast iron stove**
- 6.4 Pellet stove**
- 6.5 Spa heater**
- 6.6 Fireplaces on gas**
- 6.7 Hot water fireplaces**
- 6.8 Pellet fireplaces**
- 6.9 The compact fireplaces**
- 6.10 Without fireplaces, chimney flues corrosion-proof**
- 6.11 Electric fireplaces**
- 6.12 fireplace kits**
- 6.13 Furnace**
- 6.14 Cookers for wood and coal**
- 6.15 Garden fireplaces**
- 6.16 Garden grills**
- 6.17 Talcum storage heater**

7. ACCESSORIES FIREPLACE AND STOVE

- 7.1 Fireplace fittings, cladding fireplaces**
- 7.2 Pedestals fireplaces**
- 7.3 Heat exchangers**
- 7.4 Flue systems for air distribution, chimney cowl**
- 7.5 Fireplace grates**
- 7.6 Building material for fireplaces, insulation boards, refractory material**
- 7.7 Production of tiles**
- 7.8 Decorative elements, cornices, ornaments**
- 7.9 Cleaners fireplaces and stoves**
- 7.10 Production, distribution of firewood**

8. SERVICES

- 8.1 Service, installation and inspection of heating systems**
- 8.2 Sales of fuels and energy**
- 8.3 Ecological projects and expert services**
- 8.4 Energy consulting, support projects, subsidies, financing, credit**
- 8.5 Professional associations and organizations**
- 8.6 Professional literature, internet, portals**

9. POOLS, WHIRLPOOLS AND SAUNAS

10. OTHERS
